

14 June 1977

MEMORANDUM FOR THE RECORD

FROM:
Policy and Plans Group

SUBJECT: Presidential Review of the Classification
System

On this date the Chief, SRD telephonically advised the writer of the following elements which he feels may be pertinent to subject.

a. Possible representation of historians and scientists on the committee as individuals with more than a passing interest in eventual declassification.

b. Possible representation of industry on the committee. This relates to the fact that a great deal of classified information is in the hands of industrial contractors and that they may have legitimate views in the declassification review.

STAT

*be the alone - We were not tasked to
propose representative membership. People outside
of Government will be of concern to the
Archivist of the U.S., a member. In this sense,
historians, scientists etc are represented*
